Installation Instructions

*** The mirror is FRAGLIE, handle with CARE! ***

Attention:

*** Before commencing installation or maintenance, ensure electricity is switched off.

*** DO NOT remove the black triangle plastic corner mirror protectors before assembly of the mirror.

Installation:

1. Make sure the desired installation orientation is selected. The orientation arrow mark (A) or (B) can be found on the back plate or the back of the mirror.

2. Mark on the wall the exact position of the mounting screws holes.

3. Install the back plate on the wall. Make sure they are firmly secured.

4. Insert the power plug into an outlet or cut the plug if hardwired is necessary (INSTALLATION BY A LICENSED ELECTRICIAN IS RECOMMENDED).

5. Insert the mirror onto the back plate cleats.

6. Remove the conner protector and peel off the surface protective sheet and clean the mirror after mirror is installed.

TURN ON THE SWITCH AND ENJOY YOUR LIGHTED MIRROR!
